"**PORTABLE TOILET** WITH FULL FUNCTIONALITY"

Single-stall portable toilet with green and blue colors, nice design and environmentally friendly.

Models made from PE material which is strong and durable

400 liters capacity waste tank

150 liters capacity water tank

Easy installation, save time and reduce transportation cost

Double plastic insulation for better heat protection

Sealed slide valve to prevent odors, including air vents

FUNCTIONALITY

Standard bathroom bolt

Light
(optional)

Toilet paper box
(for portable squatting toilet)

Toilet paper holder
(for portable sitting toilet)

Air vents

Toilet hose
(for portable sitting toilet)

TYPES OF **PORTABLE TOILET**

1

PORTABLE SQUATTING TOILET

WITH FOOT PUMP SYSTEM

The convenient FOOT PUMP system with a great price, reduce exposure and easily flushes the sewage by simply stepping on the flush.

PORTABLE SITTING TOILET

WITH FOOT PUMP SYSTEM

The FOOT PUMP system also comes with a sitting toilet that will make it easier and more comfortable

2

PORTABLE SITTING TOILET

WITH TOILET HOSE SYSTEM

Some Thai people can't use the toilet hose. This type of toilet is therefore designed to fulfill their needs. With the toilet hose system, you can just press to release a quick water cleanse.
